

ATISSCO
The Value of Trust

We believe that agriculture can benefit greatly from the use of efficient and environmentally friendly fertilizers.

ATISSCO is a global company, which since 2018 has been providing Petrochemical products around the world with products to improve crop yields. It produces and markets bio stimulants products with a specific action, organic and organo-mineral fertilizers, solids and liquids for best meeting agricultural requirements which are increasingly specialized and attentive to environmental sustainability. It has a full range of products, split over multiple lines, for conventional and organic farming. The activity carried out in collaboration with leading refineries across the world, confirms the desire for continuous improvement and enables ATISSCO to remain at the top of the biotechnology sector for plant nutrition and bio simulation. The reduction of greenhouse gas emissions and climate change are issues of primary

To compete globally in the medium and long term, we have to innovate, meet the highest standards of safety and operate according to essential criteria for environmental sustainability. Flexibility, ability to innovate and enthusiasm best sum up our working approach, which has led the company to excel in the organic fertilizer market and become identified as a benchmark for the bio stimulant sector. Quality, innovation, sustainability, and much more; ATISSCO commitment to practice agriculture properly, respecting the relationship between human beings and the earth.

ATISSCO Group is also reputed in trading thousands of Oil and Gas quality products all over GCC & having permanent based warehouses and legally registered offices in Saudi Arabia, Qatar, Bahran, UAE & India, for more information about our Oil and Gas products, we recommend to visit: www.atisscointl.com or www.atissco.com
